# CLASSES

Classes 1-4 and class 6 will be run as single phase. Riders jump round 6-8 fences, and then they go straight into the timed jump-off against the clock without interruption or halting in between rounds. ... In a "single phase" class faults are accumulated in both sections with all riders going through to the timed part of the course against the clock. Starting times will be issued for each competitor and must be strictly adhered too.

First rider jumps the course, then hands a baton / whip over to second rider who will be waiting in a boxed area. Second rider then completes the course.

Riders can 'rescue' each other in the event of 2 refusals at any one fence. The baton must be exchanged in the event of a rescue. Each rider may only rescue once. After a rescue, the rider must complete the course and then their own round if relevant.

The Round will be judged on total faults and time of both riders.

**6. Christmas Cracker Stakes- 80/85cm, single phase**

**7. Advent accumulator – 80cm to 1m (only the joker will be 1m)**

This competition takes place over eight obstacles which are progressively more difficult. The progressive difficulty is not solely due to the height and spread of the obstacles, but also to the difficulty of the track.

Points are awarded as follows: One point for obstacle No. 1 cleared, two points for No. 2, three points for No. 3 etc. with total of 36. No point is awarded for an obstacle knocked down. Faults other than knock-downs are penalised as per normal and any of these faults are converted into points and deducted from any jumping points scored.

In the event of equality of points, this competition will also take place directly against the clock. The last obstacle of the course, The Joker, will carry double

points (16 points). If the Joker is knocked down, the points must be deducted from the total. There will be an alternative to the joker which only carries 8 points.
